

## ENGLAND HAS WARNED TURKEY.

Lord Kimberley Energetically Insists That Armenia Must Be Governed Better.

[BY CABLE TO THE HERALD.]

LONDON, Dec. 2, 1894.—The Daily News correspondent in Constantinople confirms the report that Great Britain warned Turkey against violating the Berlin treaty by permitting the slaughter of Armenians. He says:—"Lord Kimberley energetically insisted that the Porte must govern Armenia better. The British Consul in

Erzeroum, Mr. Graves, has been instructed to watch the commission of inquiry.

The Armenian committee in Athens has petitioned the Ministers of the Powers signing the Berlin treaty. After reviewing the massacres in Armenia, and describing the misery of the Armenian Christians, they implore that article 61 of the treaty be enforced. This is the article guaranteeing the security of the Armenians.
