

# ARMENIANS FREEZING OR STARVING.

---

Refugees Tempted or Driven Back to the  
Sassoun District by Turks.

LONDON, March 16—4 A. M.—A despatch from Mouh via Kars reports that the villages in the Sassoun districts are covered with snow three feet deep.

The Turks, in order to deceive the commission of inquiry and by means of specious promises or force, have compelled many refugees to return to their villages, where they are dying from cold or starvation.
